

It takes thousands of knots
to make a beautiful rug.

And another one to
make sure a child
didn't weave it.

Some 250,000 South Asian children are forced to weave rugs destined for our homes. Look for the human knot on the GoodWeave label and you can help stop this practice.

Every GoodWeave certified rug is made on a loom that is independently monitored, ensuring that only adult artisans crafted it. Your GoodWeave purchase helps get children off looms and into schools.

So when you are looking for a beautiful rug, look for the GoodWeave label.
